F. Design standards

1. The following apply to all land use categories where secondary dwellings are allowed.

SIZE OF LOT	MAXIMUM SIZE OF UNIT(1)	TYPE OF ROAD SURFACE(2)	MAXIMUM DISTANCE FROM PRIMARY UNIT
6,000 sq. ft. - 1 acre	800 square feet	Paved	50 feet
> 1 acre - 2 acres	800 square feet	Chip seal(3)	50 feet
> 2 acres	1,200 square feet	Chip seal(3)	250 feet

Notes:

- (1) Includes attics greater than six feet in height, unconditioned storage space and lofts.
- (2) If the road that provides access to the property is maintained by the County, State or special district, the surfacing requirement does not apply. If the road is not maintained by the County, State or special district, the surfacing requirement applies and the road must be maintained through an agreement with property owners fronting the road or through an established homeowners association.
- (3) Chip seal must be placed over a Class II, or better, base material as defined by California Department of Transportation standards along the property frontage and back to nearest maintained road.

2. **Driveways:** The driveways serving the primary and secondary dwelling shall be combined where possible. An adjustment may be granted in compliance with Section 22.70.030 if combining driveways is prohibited by a physical site constraint, would result in grading on slopes over 15 percent, or would require the removal of oak trees or other native trees.

3. **Within urban and village reserve lines:**

- a. The secondary dwelling shall employ a design style compatible with the primary dwelling.
- b. When a secondary dwelling is attached to the primary dwelling, the entrances shall be designed to maintain the character of a single dwelling and to avoid the attached secondary dwelling changing the appearance of the primary dwelling to resemble a duplex. The entrance to an attached secondary dwelling shall not be located on the same building face as the entrance to the primary dwelling unless the entrance to both the primary and secondary dwellings is shared.
- c. No more than 50 percent of the site shall be covered by structures.

4. **Exceptions to design standards.** The Review Authority may approve alternatives to the design standards of Subsection F in compliance with Section 22.62.050, but shall not approve alternatives to any other provision of this Section. The maximum size of unit as set forth in Subsection F.1, and the maximum size of the garage workshop as set by Subsection F.6, cannot be modified except by a Variance (Section 22.62.070). The maximum distance from the primary unit may be adjusted in compliance with Section 22.70.030 where the secondary dwelling is proposed within an existing structure legally constructed prior to January 1, 2006 and there will be no physical change to the site (no additional footprint or garage space added to serve the secondary unit). Otherwise, the maximum distance from the primary unit may be modified only where the Review Authority first finds the following:
- a. Locating the secondary dwelling within the distance as set forth in Subsection F.1. would necessitate the removal of, or impact to, any of the following:
 - i. Existing improvements, such as swimming pools, wastewater disposal fields, drainage facilities, or water storage tanks.
 - ii. Sensitive or significant vegetation such as native trees or shrubs, riparian vegetation, vineyards, orchards, or visually prominent trees.
 - iii. Significant topographic features (steep slopes, ridgelines, bluffs) water courses, wetlands, lakes or ponds, or rocky outcrops.
 - iv. Archaeological resources.
5. **Parking.** A secondary dwelling shall be provided one off-street parking space per bedroom to a maximum of two spaces, in addition to those required for the primary residence by Chapter 22.18 (Required Parking Spaces - Residential Uses). The parking space shall be located, designed and constructed in compliance with Chapter 22.18, except that for lots of 7,500 square feet or less, the parking may be located within the front setback and tandem with the parking required for the primary dwelling.
6. **Garage/workshop.** The garage/workshop for a secondary dwelling is limited to a maximum of 50 percent of the size of the secondary dwelling. Where the secondary dwelling is constructed on the second floor of the primary dwelling's detached garage, no additional attached or detached garage/workshop shall be permitted.

SECTION 12. That the activity is covered by a Statutory Exemption (pursuant to California Environmental Quality Act Guidelines Section 15282(i) from the California Environmental Quality Act (CEQA).

SECTION 13. If any section, subsection, clause, phrase or portion of this ordinance is for any reason held to be invalid or unconstitutional by the decision of a court of competent jurisdiction, such decision shall not affect the validity or constitutionality of the remaining portion of this ordinance. The Board of Supervisors hereby declares that it would have passed this ordinance and each section, subsection, clause, phrase or portion thereof irrespective of the fact that any one or more sections, subsections, sentences, clauses, phrases or portions be declared invalid or unconstitutional.

SECTION 14: This ordinance shall take effect and be in full force on January 1, 2007. Before the expiration of 15 days after the adoption of this ordinance, it shall be published once in a newspaper of general circulation published in the County of San Luis Obispo, State of California, together with the names of the members of the Board of Supervisors voting for and against the ordinance.
